GO_Biological_Process_2021
medium-chain fatty acid catabolic process (GO:0051793)
plasma membrane tubulation (GO:0097320)
negative regulation of cellular component movement (GO:0051271)
synaptic vesicle transport along microtubule (GO:0099517)
anterograde synaptic vesicle transport (GO:0048490)
smooth muscle contraction (GO:0006939)
cardiac cell development (GO:0055006)
medium-chain fatty acid metabolic process (GO:0051791)
negative regulation of cell morphogenesis involved in differentiation (GO:0010771)
negative regulation of locomotion (GO:0040013)
